THE LIFE LUTHERAN DAY SCHOOL

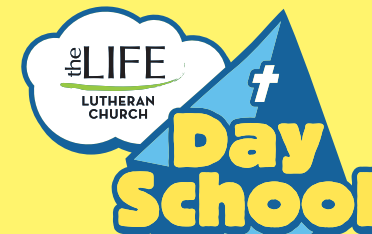

offers children 2-8 years of age a fun and stimulating summer program to explore, discover and learn. Our program emphasizes active participatory learning where children construct knowledge through interactions with materials, people, events and ideas.

Our summer program is designed to meet the intellectual, physical, social-emotional and creative needs of your child. We provide an enriching, hands-on program with an objective toward developing your child's self confidence, independence, and initiative.

At THE LIFE Lutheran Day School your child will find joy in discovery while exploring the depths of his or her imagination!

SUMMER CAMP 2024

5-WEEK PROGRAM
JUNE 24TH - JULY 26TH

WEEK 1
STEM EXPLORERS
 JUNE 24TH - JUNE 28TH

During this one-week summer camp the children will participate in hands-on STEM activities focusing on science, technology, engineering, and math. STEM activities help children develop critical thinking skills, encourages curiosity, inspires creativity, builds confidence, and provides opportunities for them to make their own discoveries. Summer is the perfect time to build giant structures, create water walls, make sand slime and much more!

WEEK 2
CRAFTY CREATORS
 JULY 1ST - JULY 5TH

Join us for a week filled with fun arts & crafts and building & tinkering activities designed to foster individuality, creativity, and friendship. Through hands-on active learning the children will develop an appreciation for art and creative discovery while enhancing problem solving skills, motor skills, self-expression, and their imagination. The children will participate in child centered art and creative activities both indoors and outdoors.

PLEASE NOTE:
CAMP IS CLOSED
 JULY 4TH

WEEK 3
SPACE ADVENTURE
 JULY 8TH - JULY 12TH

Teaching children about outer space nurtures their natural sense of curiosity and wonder. Children are fascinated by the vastness of the universe and love learning about planets and the solar system. From learning about the phases of the moon to making galaxy inspired Oobleck, slime, and rockets, they will have tons of fun with their friends while learning!

WEEK 4
OUTDOOR EXPLORERS
 JULY 15TH - JULY 19TH

Most kids love an adventure, and what's better than exploring the outdoors? Playing and exploring outdoors gives children the chance to explore the natural world and fosters development across all learning domains. Through hands-on activities the children will play with and discover things like rocks, dirt, trees, bugs, animals, flowers, mud and water.

WEEK 5
MESSY MADNESS
 JULY 22ND - JULY 26TH

Messy Play harnesses children's spontaneous exploration and provides them with opportunities to learn through the sense of touch. During this messy one-week summer camp the children will explore and manipulate a variety of materials, examine objects, explore different textures, participate in messy art and science activities, and have a blast getting messy with sensory play.
