

Your child is important to us at **THE LIFE!**

At **THE LIFE Preschool**, children are welcomed as individuals. We try to understand them and to help them learn and grow in a healthy Christian environment. We also help prepare them for their first step into kindergarten and elementary education.

THE LIFE Preschool provides two-, three-, and four-year-olds with an opportunity to grow spiritually, intellectually, and emotionally in a loving Christian atmosphere. Our goals are to allow each child to develop a positive self-image as a special, unique child of God and to create a place where children will develop an interest and joy in learning about themselves and the marvelous world God has created.

Daily Program

THE LIFE Preschool creates positive early childhood learning experiences that help to shape your child's educational growth and attitude toward school. Movement, "hands-on" activities, and discovery are essential elements for learning in young children. Our program is designed to provide balance between active involvement, periods of free time, and structured learning situations in a multi-sensory environment.

((left) Creative play is an integral part of a child's development.

((below) Holiday celebrations are great opportunities to learn, create and have fun.

((above) Puzzles and manipulatives help develop fine motor skills.

Your child's schedule will include:

- Story time
- Chapel
- Group activities
- Creative movement and music
- Outdoor playground
- Cooking
- Manipulatives and games
- Field trips

((left) Outdoor play is essential for large motor skills.

((above) All age groups enjoy outdoor play structures.

((left) Cooking enforces many concepts, such as math, science, and reading readiness.
